Say, brother in the North, I hope you'll find it worth A little of your time
To listen to my rhyme.
We're way down in the mouth,
We fellers in the South.
We picked a bumper crop And thought to be on top When European war Delivered us a jar. But we are nearly broke. You have a noble soul And carry a big roll. The times are simply rotten, Just buy a bale of cotton. You'll make a bit no doubt And help your brother out. New York to the South:

Well, if you are my brother, We must help one another; But, Johnny, don't you see You're rather rough on me. When cloudless is the sky And the goose is hanging high, Tis then with ghoulish glee You have it in for me. You find no word of praise For any of our ways. You try to clip our wings And call us dreadful things; Our Wall Street is a sink You'd put it on the blink; You hand us little jokers, By putting one across. But when you're in a hole You laud our noble soul, And then for help you fly To those whom you decry. A question let me ax, Who pays the income tax? If money you would raise Who 4s the one that pays For philanthropic work? It's little old New York— When there are loads to bear She takes the lion's share. Our times are also rotten— But send along your cotton, For, seeing it is you,
I guess we'll help you through.

Sir: As a former teacher I have followed closely your editorials and news articles concerning the case of Mrs. Peixotto, It may be of interest to you to know that on my return to Cuba this fall I found myself in the same house with a teacher, a native Cuban, who is now at home expecting the birth of her child in October. She has a permit from the Board of Education of Cardenas to be absent from her work until January. A substitute will hold her place until then. There has been at no time any discrimination against her since she was married. When I explained to the members of her family Mrs. Peixotto's case they said: "Americans are very unreasonable.
